## Experience

### March 2022 - Until now

Cobrowser | Netherlands (Remote)

#### Full Stack Developer

- As a part of the subscription team I was responsible for managing subscription plans, payments and shopping cart in the system by fixing and adding features. We constantly integrate important features especially new payment methods.
- Worked adding product preset feature in the FB catalog for whatsapp, so customers can send multiple products to their customers through whatsapp
- Worked on adding encryption and decryption for sensitive data in database using PHP Symfony and Angular
- Worked on integrating API2CART which helps customers to sync their websites system to our system
- Worked on adding payment methods so customers can send payment links for their customers
- Worked on covering companies repositories with unit and integration tests
- worked on many hot-fixes and features

### July 2021 - August 2021

Alqoud Enterprise | Manama, Bahrain

#### Web and App developer

I have worked in Alqoud Enterprise for 2 months of internship, I was working in the IT department and worked in developing the Natural Bites App for Android using Flutter and Dart, I also worked with Firebase and Firestore databases.

### June 2017 - December 2017

Abas Saber building materials - Al Khobar, Saudi Arabia

#### Help Desk

Assistant in a Building materials company where I was responsible of paper work and making reports and also fixing, updating and maintaining programs and PCs for the company
